### **October 10<sup>th</sup>, 2023**

Dear delegates, dear friends, dear Societies Officers,

I am very sorry to inform you that this evening we had a FIMM Executive Board meeting and decided to our great regret to cancel the General Assembly in Israel because of the terrible situation/war that is going on.

We took this decision together with our 2 Board members from Israel: Aharon Finestone and Negev Bar. We had no other choice to do so.

Instead, we will have an online/virtual meeting, the same way we did during the COVID-19 Pandemic 2 years ago. You will be informed the upcoming days about more details, date and time.

We also will work on a document to use for cancellation your already booked flights. It will be sent to you within 1 or 2 days together with an extended email and letter.

In between our thoughts are with our friends and colleagues in Israel and all the families of the many senseless victims this war has made and will make if the situation escalates.

Let's hope for a quick end of this misery.

Yours, Henk Bultman, President of FIMM
