 - Journal: _____

2025 Societal SWOT Analysis

Country / Society Name

➤ Strengths

- The only Society to train in MOM as a medical specialty in the entire American continent.
- The only Spanish-speaking MOM postgraduate course, with Latin American, Spanish and French teachers.
- Pioneers in specific Soft Tissue MOM techniques, which we conceptualize as the fundamental tool in MOM: it develops the clinical diagnosis, resolves the most severe cases with minimal complications, easy learning and compatible with most medical specialties.
- Member of FIMM.

➤ Weaknesses

- Society little known in America due to its youth.
- Diversity of training in our members.
- We do not have a scientific journal.

➤ Opportunities

- Continue supporting the Spanish-speaking MOM University course.
- Support the development of the 2nd Level of this postgraduate course aimed at the use of minimally invasive techniques.
- Maintain interaction with all FIMM Societies.
- Participate in FIMM activities.
- Develop a campaign to recruit and publicize the Society.

➤ Threats

- Carry out face-to-face activities due to the characteristics of the geography of the American continent.
