

# **Success and Confidence Treating Musculoskeletal Pain**

**The conference is from Friday November 5 – Sunday November 7, 2021 at Inn at Laurel Point, Victoria, British Columbia**

The speakers will deliver evidence based presentations on pain management for migraine, dystonia, hip, sacroiliac joint and groin pain. Management skills that affect patient recovery, including in-depth discussion on modalities such as fascial manipulation, trigger point injections, prolotherapy, platelet-rich plasma, stem cells, and functional genomics will be reviewed.

**Some of the key note speakers are:**

**Dr. Jannice Bowler:** Injectate Review - Hyaluronic Acid, Steroids and PRP.

**Dr. Rob Burnham:** Radiofrequency Treatments for Refractory Knee Pain.

**Anna Davenport:** Fascial Manipulation, Stecco method

**Dr. Ian Finkelstein:** Beyond PREEMPT and How to Manage Complex Migraine Patients

**Dr. Adrian Gretton:** Sacroiliac Prolotherapy – Assessment and Structures

**Dr. Ted Harrison:** PRP Update and a Dextrose PRP Study

**Dr. Mansoor Mohammed:** Functional Genomics – Fibromyalgia in 2021

**Dr. Erik Quellette:** Sacroiliac Prolotherapy – Injections, Tips and Techniques

**Dr. Ashley Smith:** Facet Joint Platelet Rich Plasma in Whiplash Associated Disorder

**Dr. Melina Thibodeau & Sandy Wilson:** Evaluating Hip Pain: A Sports Medicine Perspective

**WORKSHOPS Saturday Afternoon:**

Manual Medicine, Ultrasound Guided Procedures and Prolotherapy.

Medical physicians and allied health practitioners (Nurse Practitioners, Naturopaths, DOs, Dentists, Physiotherapists), Residents/Medical Learners and retired physicians are welcomed.
